

Our Network Connects You with Your Markets **Worldwide**

Customized Global Logistics

EMO LOG

Do you know your **options?**

Our end-to-end service reaches your customers all over the world. EMO-LOG has been a specialist in flexible logistics for global B2B and B2C online mail order both nationally and internationally for over 10 years. The right solution for every client worldwide. We keep logistics simple and to high standard.

Benefit from our customized fulfillment solutions—from small, family-owned businesses to international corporations.

Overcome customs obstacles with us—our expertise helps you avoid mistakes. Whether you are already shipping large quantities or taking your first steps as a startup—we will advise you and handle your customs formalities for entering non-EU markets confidently and quickly.

As your dependable partner, we leverage all our experience and technical expertise to make your company more than ready to handle the demands of day-to-day transport and logistics.

Your benefit

We meet all your needs from end to end.

From and to the **EU** plus all other countries **worldwide**

You sell your goods all over the world. Teaming up with EMO-LOG gives you access to new markets and new customers.

Examples

Switzerland: As a full-service specialist, we help you with Switzerland's specific customs regulations. Uncomplicated, certain and fast-paced. You can also rely on our years of know-how and knowledge of the latest laws and guidelines.

Central Europe: Our all-round service, network capacity and joint venture are also at your disposal in growth markets such as Czechia, Poland and Slovakia.

Great Britain: Smooth commerce between the European Union and non-EU countries—and not just since Brexit. We work out customized solutions. Simplified and accelerated with all-inclusive service from EMO-LOG: reliable, qualified customs processing (AEO-certified), 3PL, initial consultation, CEP services, road freight, EU distribution, FBA and FBM (Amazon) and (of course) returns management all in one.

USA (and RoW): We transport your goods to Germany through our network. We set up your EU warehouse, your EU mailing address and your EU distribution network for you. We also handle customs and taxes. You don't have to be based in Germany yourself—no startup, no staff costs. We also help you get your import VAT refund.

Your benefit

Whether you're a fresh startup or an established company, we offer you the right support for your global business.

About us:
All around the world, what counts is the **team**

Your logistical challenges are what drive us. As your dependable partner, we leverage all our experience and technical expertise to make your company more than ready to handle the demands of day-to-day transport and logistics.

We continually work with you on new logistics solutions. To us, ensuring the quality of tomorrow also means the continuous development of our team, especially in digital processes.

All this makes us efficient, lets us continuously grow together and leads to long-term, trusting cooperation.

Right to the top with our **team of partners**

Our end-to-end solution for your success. With our powerful partner model, you'll be ideally situated.

Your benefit: flexible logistics that meet your specific needs. EMO-LOG continues to be your established contact. Your one-stop shop for comprehensive logistics solutions.

Your benefit

A strong, global network with international expertise and capacity.
