

**GET FASTER.
GET BETTER.
GO EUROPE.**

Speed up
your business.

A TAX FOR TURNOVER.

We make it your advantage.

Shipments from the United States to the EU are subject to customs duties and import turnover tax. This tax, which is not known in the U.S., is based on the regular VAT. For

importing goods to Germany, that's 19% of the import value.

That may initially sound unfair, as it makes every product more expensive for the seller and, naturally, the buyer. But there is a way for you to keep import turnover tax cost-neutral and enormously simplify and even speed up your goods

transfer to the EU. As we store your products in Germany, distributing them throughout Europe is just a matter of hours.

You want to be at the top of your game in the EU?

We'll show you how.

SHORT TRANSPORT ROUTES.

WITHOUT EMO-LOG

DISADVANTAGES

- > Long transport routes
- > High costs
- > No refund of VAT
- > Individual customs clearance

1

Mr. Smith from Chicago would like to sell his products in the EU in the future and to be a player on the European market. First market analyses are promising.

2

He contacts EMO-TRANS, parent of EMO-LOG.

3

EMO-LOG obtains a VAT no. for Mr. Smith's company and takes care of all formalities with the German customs and tax revenues.

WITH EMO-LOG

4

EMO-TRANS ships Mr. Smith's products from the U.S. and other production locations all over the world to Germany. EMO-LOG stores the goods and distributes them speedily throughout Europe.

5

The tax services agency at EMO-LOG submits the necessary documents for a refund of import turnover tax and ensures compliance with all other regulations.

6

The import turnover tax in the amount of 19% is refunded to Mr. Smith's company.

THOSE WHO SEIZE OPPORTU- NITIES MAKE THE LONGEST RUN.

We get you into the game in Europe.

As a U.S. business supplying goods in the EU, you can claim a refund of import turnover tax when you have a VAT identification number in Germany. You don't need an office or team in the EU to do this. We take care of it. As a logistics company with decades of experience in importing and exporting cargo, we organize your entire

shipment and take care of all tax formalities. This is how we get you into the game.

We apply for your company's VAT no., ship your goods to Germany, store the goods, distribute them to the corresponding EU member country, and take care of all customs and tax formalities with authorities extending to a refund of your VAT.

This team play has several advantages for you: You can offer your products at up to 19% reduced prices, leaving you more room for

price negotiations. By storing your products in Germany, you can distribute them faster to your customers in the EU. What's more: If your goods aren't produced in the U.S. but, e.g., Asia, you can deliver directly from there to Germany – without detours via the United States.

As you see: With EMO-TRANS / EMO-LOG on your team, you can win lots of matches in Europe. Take your trophy. And new markets and customers along with it.

We'll support you.

YOUR ADVANTAGES AT A GLANCE

We obtain a German VAT no.
for your company.

We take care of tax matters.

We store your goods for you.

We distribute in the EU market.

You don't need an office
or staff in the EU.
